

TETYANA WILSON

UI/UX DESIGNER | ARCHITECT | ANALYST

PROFILE

I am a customer-oriented UI/UX Designer with over 15 years of experience. I worked for over 20 years in the computer industry & learned about users/clients, how to avoid mistakes, and the best processes for a product/application to succeed.

I always discover innovative approaches & improving solutions to any task in front of me. Formerly in my UI/UX Designer role and this field, I have stemmed from my essential way to predict problems, what users will need, and many ways to find solutions to the issues. I have enhanced my innovation abilities and cultivated a reputation as a significant contributor through observation, empathy, critical thinking skills & by introducing fresh perspectives.

I am a collaborative team player, love a challenging assignment, and work diligently to deliver projects on time.
